**A001 . Issuance and Applicability**

**HQ Control: 02/11/2016**

**HQ Revision: 05e**

a. These operations specifications are issued to Able Aerospace Services Inc., a Repair Station located in the United States, pursuant to 14 CFR Part 145, § 145.53. The repair station certificate holder shall conduct operations in accordance with 14 CFR Part 145 and these operations specifications.

The certificate holder's address:

Fixed Location:  
7706 E. Velocity Way  
Mesa, Arizona 85212

b. The holder of these operations specifications is the holder of certificate number AILR190N and shall hereafter be referred to as the "certificate holder".

c. These operations specifications are issued as part of this repair station certificate and are in effect as of the date approval is effective. This certificate and these operations specifications shall remain in effect until the certificate for a repair station that is located in the United States is surrendered, suspended, or revoked.

d. The repair station specified on these operations specifications and located within the United States performs maintenance and/or an alteration of aircraft and/or aeronautical products to be installed on aircraft under the terms and conditions of the U.S./EU Safety Agreement, Annex 2, Maintenance, between the FAA and the EU.

e. The certificate holder is authorized to conduct the operations described in subparagraph a under the following other business names:

Able

AAS

Delegated authorities: None

1. The Certificate Holder applies for the Operations in this paragraph.
2. These Operations Specifications are approved by direction of the Administrator.

Digitally signed by Michael G Moyer, Principal Maintenance Inspector (WP07)

**A002 . Definitions and Abbreviations**

**HQ Control: 02/11/2016**

**HQ Revision: 05c**

Unless otherwise defined in these operations specifications, all words, phrases, definitions, and abbreviations have identical meanings to those used in 14 CFR and 49 U.S.C., as cited in Public Law 103-272, as amended. Additionally, the definitions listed below are applicable to operations conducted in accordance with these operations specifications.

<b>BASA</b>	The Bilateral Aviation Safety Agreement (BASA) is an executive agreement concluded between the United States and a foreign country for the purpose of promoting aviation safety; also known as an Agreement for the Promotion of Aviation Safety.
<b>Certificate Holder</b>	In these operations specifications, the term "certificate holder" means the holder of the repair station certificate described in these operations specifications in Part A paragraph A001 and any of its officers, employees, or agents used in the conduct of operations under this certificate.
<b>CFR</b>	Code of Federal Regulations
<b>Class rating</b>	As used with respect to the certification, ratings, privileges, and limitation of aircraft within a category having similar operating characteristics.
<b>EASA</b>	European Aviation Safety Agency
<b>EASA Accountable Manager</b>	The manager who has corporate authority for ensuring that all maintenance required by the customer can be financed and carried out to the standard required by the EASA full-member Authority.
<b>EU</b>	European Union
<b>Exemption</b>	An authorization that permits an alternate means of compliance with a specific CFR. The exemption must meet the procedural requirements of 14 CFR Part 11.
<b>FOCA</b>	Federal Office of Civil Aviation
<b>FAA Accountable Manager</b>	A person designated by the certificated repair station who is responsible for and has authority over all repair station operations that are conducted under 14 CFR Part 145, including ensuring that the repair station's personnel follow the regulations and serving as the primary contact with the FAA.
<b>Geographic</b>	An approval provided to a repair station located outside the United

<b>Authorization</b>	States to perform maintenance support under contract for a U.S. air carrier (or an operator of U.S.- registered aircraft under 14 CFR Part 129) at a location other than the repair station facility. A geographic authorization is issued by the FAA to respond to a U.S. air carrier's or Part 129 foreign operator's need for maintenance at a station where the frequency and scope of that maintenance does not warrant permanently staffing and equipping the station for its accomplishment.
<b>Limited Rating</b>	A rating issued to repair stations for the performance of maintenance on particular makes and models of airframes, powerplants, propellers, radios, instruments, accessories, and/or parts.
<b>Limited Ratings - Specialized Services</b>	Rating issued for a special maintenance function when the function is performed in accordance with a specification approved by the Administrator.
<b>Line Maintenance</b>	Any unscheduled maintenance resulting from unforeseen events, or scheduled checks where certain servicing and/or inspections do not require specialized training, equipment, or facilities.
<b>MAG</b>	The Maintenance Annex Guidance (MAG) defines the process that the FAA and EASA undertake in the inspection, findings of compliance certification, and monitoring of repair stations, as well as their joint cooperation in quality assurance and standardization activities in support of the Agreement, Annex 2, Maintenance.
<b>Maintenance</b>	The inspection, overhaul, repair, preservation, and replacement of parts, but excludes preventive maintenance.
<b>U.S./EU Aviation Safety Agreement, Annex 2, Maintenance</b>	Annex 2 covers the reciprocal acceptance of findings of compliance, approvals, documentation and technical assistance regarding approvals and the monitoring of repair stations/maintenance organizations.
<b>MIP</b>	Maintenance Implementation Procedures (MIP) are procedures for implementing the provisions of a BASA that apply to maintenance.
<b>MOE</b>	A maintenance organization exposition (MOE) pertains to EASA member countries that use an MOE in place of a Repair Station Manual (RSM) and a Quality Control Manual (QCM).
<b>Preventive Maintenance</b>	As defined in 14 CFR part 1 and part 43 appendix A, subparagraph (c).
<b>QCM</b>	Quality Control Manual
<b>Repair Station located in the United States</b>	A certificated repair station located in the United States.

**Repair Station located outside the United States** A certificated repair station located outside of the United States.

**RSM** Repair Station Manual

None authorized

**Limited Ratings**

<b><u>Rating</u></b>	<b><u>Manufacturer</u></b>	<b><u>Make/Model</u></b>	<b><u>Limitations</u></b>
Airframe	Bell Helicopter	206 All Series	None
	Bell Helicopter	407 All Series	None
	Bell Helicopter	47, 204, 205, 212, 214, 222, 230, 412, 427, 430 All Series	Limited to: Maintenance, Preventative Maintenance, and Alteration of components and component subassemblies. Using the methods techniques and practices prescribed by the manufactures current maintenance manuals or Instructions for Continued Airworthiness (ICA's) or other methods techniques and practices acceptable to the administrator.
	Airbus Helicopter	BO-105, BK-117 All Series	Limited to: Maintenance, Preventative Maintenance, and Alteration of components and component subassemblies. Using the methods techniques and practices prescribed by the manufactures current maintenance manuals or Instructions for Continued Airworthiness (ICA's) or other methods techniques and practices acceptable to the administrator.
	Airbus Helicopter	AS-350, 355 All Series	Limited to: Maintenance, Preventative Maintenance, and Alteration of components and component subassemblies. Using the methods techniques and practices prescribed by the manufactures current maintenance manuals or Instructions for Continued Airworthiness (ICA's) or other methods techniques and practices acceptable to the administrator.
	United Technologies Sikorsky Aircraft	Model S-76	Limited to: Maintenance, Preventative Maintenance, and Alteration of components and component subassemblies. Using the methods techniques and practices prescribed by the manufactures current maintenance manuals or Instructions for Continued Airworthiness (ICA's) or other methods techniques and practices acceptable to the administrator.
	Airbus Helicopters	AS-350, EC-135 All Series	Limited to: Strip, paint and minor maintenance associated with the strip/paint process.
	MD Helicopters	500 All Series	Limited to: Strip, paint and minor maintenance associated with the strip/paint process.

<u>Rating</u>	<u>Manufacturer</u>	<u>Make/Model</u>	<u>Limitations</u>
Airframe	Bell Helicopters	212 All Series	Limited to: Strip, paint and minor maintenance associated with the strip/paint process.
	Boeing	717, 727, 737, 747, 757, 767, 777 All Series	Limited to: Maintenance, Preventative Maintenance, and Alteration of components and component subassemblies. Using the methods techniques and practices prescribed by the manufactures current maintenance manuals or Instructions for Continued Airworthiness (ICA's) or other methods techniques and practices acceptable to the administrator.
	Boeing/McDonald Douglas	DC-9, DC-10, MD-10, MD-11, MD-80, MD-90 All Series	Limited to: Maintenance, Preventative Maintenance, and Alteration of components and component subassemblies. Using the methods techniques and practices prescribed by the manufactures current maintenance manuals or Instructions for Continued Airworthiness (ICA's) or other methods techniques and practices acceptable to the administrator.
	Bombardier	CL-600-2B16, CL-600-2B19 ( RJ-100, RJ-200, RJ-440 Series) All Series	Limited to: Maintenance, Preventative Maintenance, and Alteration of components and component subassemblies. Using the methods techniques and practices prescribed by the manufactures current maintenance manuals or Instructions for Continued Airworthiness (ICA's) or other methods techniques and practices acceptable to the administrator.
Engines	From the accepted Capability List, as amended.	From the accepted Capability List, as amended.	Limited to: Maintenance, Preventative Maintenance, and Alteration of components and component subassemblies listed on the current accepted capabilities list which are not covered under other limited airframe ratings. Using the methods techniques and practices prescribed by the manufactures current maintenance manuals or Instructions for Continued Airworthiness (ICA's) or other methods techniques and practices acceptable to the administrator.
Engines	Rolls Royce (Allison)	250, 250-C All Series	Excluding: Overhaul and Hot Section Inspections (HSI)
	Pratt and Whitney	PT6B-36, 36A, 36B	Limited to: Maintenance, Preventative Maintenance, and Alteration of components and component subassemblies. Using the methods techniques and practices prescribed by the manufactures current maintenance manuals or Instructions for Continued Airworthiness (ICA's) or other methods techniques and practices acceptable to the administrator.
	Honeywell International (Textron Lycoming)	LTS-101 All Series	Limited to: Maintenance, Preventative Maintenance, and Alteration of components and component subassemblies. Using the methods techniques and practices prescribed by the manufactures current maintenance manuals or Instructions for Continued Airworthiness (ICA's) or other methods techniques and practices acceptable to the administrator.

<u>Rating</u>	<u>Manufacturer</u>	<u>Make/Model</u>	<u>Limitations</u>
	Honeywell International (Textron Lycoming)	LTP-101-600A-1A, LTP-101-700A-1A	Limited to: Maintenance, Preventative Maintenance, and Alteration of components and component subassemblies. Using the methods techniques and practices prescribed by the manufactures current maintenance manuals or Instructions for Continued Airworthiness (ICA's) or other methods techniques and practices acceptable to the administrator.
Engines	From the accepted Capability List, as amended.	From the accepted Capability List, as amended.	Limited to: Maintenance, Preventative Maintenance, and Alteration of components and component subassemblies listed on the current accepted capabilities list which are not covered under other limited engine ratings. Using the methods techniques and practices prescribed by the manufactures current maintenance manuals or Instructions for Continued Airworthiness (ICA's) or other methods techniques and practices acceptable to the administrator.
Accessories	From the accepted Capability List, as amended.	From the accepted Capability List, as amended.	Limited to: Maintenance, Preventative Maintenance, and Alteration of components and component subassemblies from the accepted Capabilities List, as revised. Using the methods techniques and practices prescribed by the manufactures current maintenance manuals or Instructions for Continued Airworthiness (ICA's) or other methods techniques and practices acceptable to the administrator.
Rotor Blades	From the accepted Capability List, as amended.	From the accepted Capability List, as amended.	Limited to: Maintenance, Preventative Maintenance, and Alteration of components and component subassemblies from the accepted Capabilities List, as revised. Using the methods techniques and practices prescribed by the manufactures current maintenance manuals or Instructions for Continued Airworthiness (ICA's) or other methods techniques and practices acceptable to the administrator. Composite repairs to blade surface are not authorized
Landing Gear Components	From the accepted Capability List, as amended.	From the accepted Capability List, as amended.	Limited to: Maintenance, Preventative Maintenance, and Alteration of components and component subassemblies from the accepted Capabilities List, as revised. Using the methods techniques and practices prescribed by the manufactures current maintenance manuals or Instructions for Continued Airworthiness (ICA's) or other methods techniques and practices acceptable to the administrator.

<u>Rating</u>	<u>Manufacturer</u>	<u>Make/Model</u>	<u>Limitations</u>
Instruments	All	See Limitations	Limited to: Pitot/static systems & Instrument systems, to include removal and installation of new avionics systems and "on-aircraft" maintenance of instrument systems for the airframes which the repair station is rated. Using the methods techniques and practices prescribed by the manufactures current maintenance manuals or Instructions for Continued Airworthiness (ICA's) or other methods techniques and practices acceptable to the administrator.
		Altimeter and Altitude Encoding Devises	Limited to: Altimeter System Test and Inspections, In accordance with 14 CFR, Part 91.411 & Part 43 appendix "E" & "F" for small aircraft under 12,500 lbs.(excludes RVSM aircraft.)
Radio	All	See Limitations	Limited to: Pitot/static systems & Radio systems, to include removal and installation of new avionics systems and "on-aircraft" maintenance of radio systems for the airframes which the repair station is rated. Using the methods techniques and practices prescribed by the manufactures current maintenance manuals or Instructions for Continued Airworthiness (ICA's) or other methods techniques and practices acceptable to the administrator.
		Transponders	Limited to: Transponder System Test and Inspection, In accordance with 14 CFR Part 91.413 & Part 43, Appendix "F" for small aircraft under 12,500 lbs. (excludes RVSM aircraft.)
Nondestructive Inspection, Testing, and Processing	See Limitations	See Limitations	<p>Liquid Penetrant Inspection (PT): Shall be in accordance with ASTM 1417 as revised for Type I, Method C &amp; D with sensitivity level 1-4 or the methods techniques and practices prescribed by the manufactures current maintenance manuals or Instructions for Continued Airworthiness (ICA's) or other methods techniques and practices acceptable to the administrator.</p> <p>Magnetic Particle Inspection (MT): Shall be in accordance with ASTM 1444 as revised or the methods techniques and practices prescribed by the manufactures current maintenance manuals or Instructions for Continued Airworthiness (ICA's) or other methods techniques and practices acceptable to the administrator.</p> <p>Eddy Current Inspection (ET): Shall be in accordance with the methods techniques and practices prescribed by the manufactures current maintenance manuals or Instructions for Continued Airworthiness (ICA's) or other methods techniques and practices acceptable to the administrator.</p>

<u>Rating</u>	<u>Manufacturer</u>	<u>Make/Model</u>	<u>Limitations</u>
			<p>Ultrasonic Inspection (UT): Shall be in accordance with ASTM E114, E127, E164, E213, E317, E494, E587, E1901, E2192, E2373, E797/E797M as revised or the methods techniques and practices prescribed by the manufactures current maintenance manuals or Instructions for Continued Airworthiness (ICA's) or other methods techniques and practices acceptable to the administrator.</p> <p>Visual Inspection: Shall use the methods techniques and practices prescribed by the manufactures current maintenance manuals or Instructions for Continued Airworthiness (ICA's) or other methods techniques and practices acceptable to the administrator.</p>

**A449 . Antidrug and Alcohol Misuse Prevention Program**

**HQ Control: 07/17/2009**

**HQ Revision: 00a**

- a. The Part 145 repair station certificate holder has elected to implement an Antidrug and Alcohol Misuse Prevention Program, because the certificate holder performs safety-sensitive functions for a 14 CFR Part 121, and 135 certificate holder and/or for a 14 CFR Part 91 operator conducting operations under Section 91.147.
- b. The certificate holder certifies that it will comply with the requirements of 14 CFR Part 120 and 49 CFR Part 40 for its Antidrug and Alcohol Misuse Prevention Program.
- c. Antidrug and Alcohol Misuse Prevention Program records are maintained and available for inspection by the FAA's Drug Abatement Compliance and Enforcement Inspectors at the location listed in Table I below:

**Table I**

<b>Location &amp; Telephone of Antidrug and Alcohol Misuse Prevention Program Records:</b>	
<b>Telephone Number:</b>	A1 (602) 304-1227
<b>Address:</b>	7706 E. Velocity Way
<b>Address:</b>	N/A
<b>City:</b>	Mesa
<b>State:</b>	AZ
<b>Zip code:</b>	85212

d. Limitations and Provisions.

- (1) Antidrug and Alcohol Misuse Prevention Program inspections and enforcement activity will be conducted by the Drug Abatement Division. Questions regarding these programs should be directed to the Drug Abatement Division.
- (2) The certificate holder is responsible for updating this operations specification when any of the following changes occur:
  - (a) Location or phone number where the Antidrug and Alcohol Misuse Prevention Program Records are kept.
  - (b) If the certificate holder's number of safety-sensitive employees goes to 50 and above, or falls below 50 safety-sensitive employees.
- (3) The certificate holder with 50 or more employees performing a safety-sensitive function on January 1 of the calendar year must submit an annual report to the Drug Abatement Division of the FAA.
- (4) The certificate holder with fewer than 50 employees performing a safety-sensitive function on January 1 of any calendar year must submit an annual report upon request of the Administrator, as specified in the regulations.

The certificate holder has 50 or more safety-sensitive employees.

1. The Certificate Holder applies for the Operations in this paragraph.
2. These Operations Specifications are approved by direction of the Administrator.

**D100 . Work to be Performed at a Place Other Than the Repair Station Fixed Location(s) HQ Control: 11/16/2004**  
**HQ Revision: 050**

- a. The certificate holder may perform work at a place other than its Fixed Location (as listed in paragraph A001, and paragraph A101 if issued, of these operations specifications) provided it has the facilities, material, equipment and technical personnel to perform the work authorized in the following table.

Table 1

Work Authorized	Repair Stations Manual References	Quality Control Manual References
Work for which the repair station is rated.	RSM Section L08	N/A

- b. The certificate holder **may not** perform **continuous** operation at a facility other than the station's Fixed Location listed in paragraph A001, and paragraph A101 if issued.
- c. Line Stations. Privileges of a line station, as set forth by the EASA certificate and scope of work and located within the country where the main facility is domiciled are listed in Table 1 are authorized.
- d. Work may be due to a special circumstance or on a recurring basis. If on a recurring basis, the repair station must have procedures in its manual.
