

# Bell 206/407/Medium

## Bearing Inspection & Repair

Able Aerospace Services has rolled all of your bearing service needs under one roof. Introducing our Level 1 bearing inspection and Level 2 bearing repair capabilities for the Bell 206, 407 and Medium.

## LEVEL 1

### BEARING INSPECTION & DYNAMIC ANALYSIS

What DON'T you know about your bearings?

Introducing Able Aerospace Services' Level 1 bearing inspection for the Bell 206, 407 and Medium. It's the latest advancement in our one-stop MRO platform, making Able's years of bearing experience now available to the industry at large.

With a one week turnaround on Dynamic Analysis evaluations, Able can ensure you know everything there is to know about your bearings at highly competitive fixed pricing. Schedule a preventative inspection today and keep your aircraft operating at its safest and most efficient levels.

# FAA Approved Bearing Program

## LEVEL 1 BEARING INSPECTION & LEVEL 2 BEARING REPAIRS

## LEVEL 2

### BEARING OVERHAULS & REPAIRS

Others want you to buy new.  
We can fix that.

Able Aerospace Services is proud to announce the launch of its FAA approved **Level 2** bearing repairs for the **Bell 206, 407 and Medium.**

Combined with our full line of Level 1 Dynamic Analysis and inspections, our new Level 2 repair capability takes advantage of our years of hands-on experience in the bearing inspection arena and allows us to completely overhaul your product and get it back into service.

Before you buy new, contact Able for a complete list of cost-saving bearing inspection and overhaul solutions. Don't see what you need? Tell us! We're adding new repairs daily and want to hear from you.
